Commissioner for Patents

Response to Amendment

The reply filed on February 11, 2008 is still not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The changes to the specification are still the same as those previously filed on June 9, 2008. The amendment to the specification rather appears to amend the pages rather than replacing the specific paragraphs. According to 37 CFR 1.121, only those paragraphs that are being amended are to be submitted. The response includes other paragraphs that make unclear whether they are new paragraphs or the markings being left out. Note 37 CFR 1.121(b)(1)(i). Are the various paragraphs containing no markings constituting "new" paragraphs? If these are previously present paragraphs and no changes are being made, then why have they been included? Note that only the paragraphs that are being replaced are to be presented on a section with a header labeled "In the specification" or similar header. See 37 CFR 1.121.

The period for response continues to run from the mailing date of the Notice of Non-complaint amendment, which is October 8, 2008. Since the period for response set in that prior Office action has expired, the application will become abandoned unless applicants correct the deficiency and obtain an appropriate extension of time under 37 CFR 1.136(a).
